

Corning Cabelcon is pleased to invite you to visit our Corning Booth G15 at the European FTTH conference held in Munich at the ICM, February 15th and 16th in Munich.

Corning is a leading manufacturer for fiber optic communications systems solutions for voice, data and video network applications worldwide and will be showing a wide selection of products in Munich. You will receive information on our latest innovations and smart solutions for all environments.

Corning Cabelcon is offering the full program of products for FTTH applications including advanced pre-connectorized OSP solutions for FTTH networks.

We look forward to welcoming you at our **Booth G15** in Munich!
